

LUNCH & LEARN

Enabling the Future of Miniaturization™

Contact us to schedule an educational Lunch and Learn event with our micro-engineering experts! Learn about cutting-edge solutions in micro tooling, micro molding, 3D printing, and automated assembly, backed by over 30 years of experience.

TOPICS:

- Thin-Walls & Long Aspect Ratios
- High Cavitation/High Volume
- Complex Geometries
- Multi-Shot
- Microfluidics
- Micro Barbs & Sharps
- Biosensors
- Optics
- DfM & DfA
- Sub-Micron Precision Tooling & Automation
- Micro 3D Printing
- Materials - Engineering Thermoplastics, Bioresorbables, Fluoropolymers, LSR, and Long-Term Implantable
- CT Scanning

To schedule a lunch and learn - at your site, at our site, or online - contact us:
